September 11, 2017

Dear Pamela Monroe,

As first a visitor (since the year I was born) and now a 35+ year resident of New Hampshire, I hope the SEC will reject Northern Pass's certificate. Allowing Northern Pass would destroy the beauty and heritage of the state which visitors and residents rejoice in.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire. The project appears to be driven by greed more than anything.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Wendy White
