Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate. With so much opposition from RESIDENTS of our BEAUTIFUL STATE, I do not understand how it is even possible that NO ONE IS LISTENING? This is wrong on so many levels. We have asked nicely so many times and the ball keeps moving forward. This is of no benefit to anyone who lives in New Hampshire and even detrimental to the beauty and environment of New Hampshire. Could someone PLEASE stop putting special interests above the wishes of the tax payers of this State? Could that voice of reason be you? PLEASE VOTE NO< NO< NO.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Mary Dutton
