Subject: Northern NH offers beautiful and pristine mountains,lakes,forests,drinking water. You must stop a company trying to pollute all I have listed above. Pollution, stealing our vistas, our ability to make a living from tourism.

Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission like also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Starcy Branch
