Dear Pamela Monroe,

As a New Hampshire resident I am opposed to the Northern Pass for several reasons. First, I am an avid hiker and spend almost every weekend hiking, skiing and snowshoeing. The impact on our precious mountains would be irreplaceable. Beyond that the economy of the North Country relies on tourism that will be impacted negatively by this project.

Economically, it my understanding that the power generated will for the most part be passing through our state to Connecticut. Thereby not reducing our electric rates.

I would appreciate you considering the views presented here.

Sincerely,
Leigh Canfield
