Dear Pamela Monroe,

The proposed Northern Pass will not benefit the people of New Hampshire, it will only detract from our beautiful state. Our power future should be focused on renewable energy and decentralized projects. Big projects like this help big business, not the people.

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Mary Fagan
