September 22, 2017

Dear Pamela Monroe,

As a resident of New Hampshire I want the SEC to reject Northern Pass's certificate.
I am just a simple man. Northern Pass looks like a scam to me.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Lester Schwartz
