Franconia, NH 03580

September 15, 2017

Dear Pamela Monroe,

As a resident of Franconia NH and a member of the Planning Board of our town, I strongly oppose this project. Property owners and business owners will suffer enormous loss, for absolutely no lasting gain to our citizens. Short term job gains will disappear. Unsightly towers, infringement on rights of way, huge disruption in the Main Street businesses of our already-struggling town are all lasting blows to NH. Why would anyone in government, especially a government that is supposedly pro-business support this? What is the lasting benefit to the State of NH? Nothing. There is only one place that this project belongs and that is in the median strip of Rt. 93. If it can't be done there, don't do it at all.

Sincerely,  
Victoria Cole
