Dear Pamela Monroe,

Once it's gone, it's gone forever!

NH is unique and beautiful, we need to keep it that way. In the end, these projects will mostly benefit Massachusetts and Connecticut, NOT NH!

PLEASE PLEASE PLEASE REJECT NORTHERN PASS!! My favorite spot in the whole world is the white mountains and I want my children's children to have the same view i enjoy when I hike Cannon mountain, the Bonds, Franconia Ridge, etc.!

There is more than 1 way to deal with clean energy, and this is NOT the answer.

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Mike Umenhofer
