Dear Pamela Monroe,

To Whom it May Concern,

Hello. I am a Connecticut transplant, I've lived in NH longer than I lived in CT, but every time I go back it really brings it home to me that NH is a very special place. When I have driven along the routes where you see 'no northern pass' signs, I have been struck by the possibility that such a scenic & rustic area could be up for consideration for that kind of development.

I have read that this project would benefit my home state-lose/lose for NH. Please don't allow for this totally unique gem to be ravaged by this project. A place so pretty should remain untouched. Thank you & have a great day!

Sincerely,
Elizabeth Surman
