Londonderry, NH 03053

September 22, 2017

Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Mass. Should be responsible for exhausting all other options such as wind around Cape Cod and solar on their buildings before creating a scare across NH that will never heal.

I wanted to lower my electric bill so I installed solar. So should Mass residents.

If it is forced on NH residents we should receive benefits from lines and the line should be put in the ground. Any thing else is unexceptable.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,  
Chris Bristol
