Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire. West FRANKLIN NH does NOT need any more powerlines - DO NOT devalue my property more than it already is! And most know powerlines & stations are NOT good for health reasons!!!! New Hampshire is a beautiful state (I was born in NH) - LEAVE it that way! We are NOT a host for states below us!!!

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Cheryl M Kipreotis
