Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

I live in Pembroke ,NH , one of the many small towns that would be on the proposed route . The construction just to put in the towers will destroy many homes as well as be unsightly . In our beautiful mountain foliage pictures we would see ugly towers , tourists will not be attracted to a sight like that .

In general , I oppose the entire Northern Pass idea Especially since it's no benefit , being a Pass through !

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Timothy Scerra
