Dear Pamela Monroe,

PLEASE reconsider your stand on putting NPT lines under Rt. 3 that would include digging up Main Street Plymouth. The merchants on Main Street of Plymouth have struggled to revitalize the downtown - especially since Big Box Store like Walmart is in W. Plymouth and sells merchandise for less! Main Street is the heart of any community. PLEASE...take this into consideration and do it FAIRLY. Big money should not be allowed to kill towns or take by eminent domain. This is not a project that would benefit NH in any way. The temporary jobs during construction have already been promised to Union Workers outside of NH.

Our state used to focus on being industrial. Well, since overseas labor is so much cheaper, most of the industry left NH. So now we are a "Tourist Destination". Well, do you really think TOURISTS will want to spend money to visit a state to look at High Power Transmission Lines?? REALLY?? This is a no-brainer, people. Common sense issues. PLEASE DO NOT LET \$\$\$\$ DESTROY NEW HAMPSHIRE.

Thank you for this opportunity to add our feelings about this project. PLEASE TAKE THE TIME TO READ EACH LETTER SENT TO YOU.

Respectfully submitted for your consideration,  
Stephen Currier
