Dear Pamela Monroe,

After a 32.5 year military career I chose to retire in NH for its stated values and outdoor recreation. This horrible project defies reason, ethics, & common sense. It doesn't pass the smell test - the corruption & collusion reek! The SEC should reject Northern Pass's certificate!

Eversource and Hydro Quebec have both said they won't pay for this \$1.6B project...so who will? The transmission towers and lines will devastate the landscape, historic sites, and the NH environment. The power will not serve our state, as it merely passes through NH.

If the committee cares about the people and lands of NH, it will REJECT this ill-conceived project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Robin Tyner
