Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will SUPPORT the Northern Pass's certificate.

I recognize the benefits of clean energy and the need to enhance the existing power grid within the United States with increased renewable resources.

I reject the premise that the modifications to the transmission routes will have a negative impact on the State of New Hampshire. I am a life long resident of the state and believe this project will bring more positive benefits to the region than any harm.

Thank you,  
Carrie Rouleau-Cote

Sincerely,  
Carrie Rouleau-Cote
