September 29, 2017

Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

If the committee continues to go forward with ruining the North Country and its citizens ability to live in beauty and attract the millions of tourist dollars each year, I demand a public publishing of those members and how much money they have taken from eversource/canada and others as bribes. MAKE those names and dollar amounts PUBLIC immediately! We deserve to know who is selling out our lands and lively hoods!

Thank you.

Sincerely,  
Starcy Branch
