North Sutton, NH 03260

September 29, 2017

Dear Pamela Monroe,

As a resident of North Sutton, New Hampshire, I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

So much damage has already been done to Canadian trees, removing their ability to handle carbon. We don't need the same injury to NH. We don't need our beautiful land dug up for a project no one needs. Emphasis should be on conservation of energy and solar/wind.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,  
Jane Williamson
