I have called NH home for the past 42 years. Falling in love with the White Mountains, fresh air and seacoast fit my desire to have a great place to live and work.

Now we have to deal with the Northern Pass that threatens my beloved NH. The Northern Pass has been in the news for so long and the information continues to disturb me. NH will have very little positive gains if the Northern Pass is built. It will provide some jobs, mostly temporary. Some money will flow into a few towns but will cause undue hardship for many others.

Businesses will be impacted. I love to go to Polly's Pancake Parlor and probably won't if I have to dodge construction for an extended period of time. This could close such a wonderful place that so many love to go to. This only one business.

To me the destruction of the beautiful scenery in NH will be as bad as the recent hurricanes that have destroyed Texas, Florida, Puerto Rico and the other small islands. The trees will be gone and these ugly towers will stand in place!

I do not see the need for the Northern Pass and hope that the powers that be will listen to the people who are impacted. I go out to Deerfield to visit friends and don't want to see the ugly towers as I drive through such a beautiful and iconic area of NH. The Northern Pass will help mostly those who do not live in NH and Eversource.

The beauty of NH draws so many here to spend their money, enjoy the environment, the scenery, the sporting events, animals and so much more. Putting up the towers for the Northern Pass will turn our state into an ugly area. One, I believe, will turn people away and kill what is best about NH.

Respectfully submitted,
Janet Gagne
