Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

Doesn't Governor Sununu care what the people of this state want? How can Northern Pass even be a consideration? This state's beauty will be forever marred by Northern Pass. I am and always have been against Northern Pass.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Sharron Raymond
