Hello, thank you for hearing my concerns about the effect the power lines will have on the city I've called home for the past 35 years.

Fifty years ago, while on vacation with his young family my Father pulled into Concord New Hampshire after camping at Bear Brook Park State Park. He drove down Main Street and fell in love. He thought the beautiful wide tree lined streets, the granite architecture, the grand State House were engaging., He loved everything about it and thought one day he would love to call it home. You see we lived in the "city" and there were plenty of signs and lights, horns and trucks, and concrete and pavement. Concord was different, it was charming and welcoming.

Please keep those coarse incredibly tall electric lines underground.

Thank you.
Jennifer Mead

My Father is 95 years old and has lived in Concord for many many happy years. Every once in awhile he will smile and say he can't believe he lives in such a beautiful place.
