Subject: The northern Pass

The northern pass is a bad idea that will only enrich MA & CT companies & is not needed. I live in SW NH & drive thru the white mountains regularly. They are treasure from God. I have heard about Power from Quebec for a long time recently learned about this project and learned it will run thru the middle of plymouth. There's no way they can do that and leave a functioning town. I recognize having power causes some scaring from powerlines we have already and hate it. The damage that would be caused by the new towers would be all the more ugly. I believe we should stop it and make it go away rather than giving to the rich guys in these companies.

They have other ways of routing power & don't need to rape our forests to do this.

Just say no
