Dear Pamela Monroe,

To the SEC Members,

NO TO NORTHERN PASS!

The disruption to the State of NH in many ways, including economic and scenic, is incalculable. This project will have no long term benefits to the people of the State of NH but surely will have a permanent negative impact.

It is clear that the so called "experts" that "testified" in favor fo the project were highly paid to say what the proponents wanted them to say without their having any local knowledge whatsoever. The foolishness of their testimony was incredibly transparent.

So, NO TO NORTHERN PASS!

Sincerely,
Jeffrey Newcomb
