CommenterWords

I strongly oppose the Northern Pass project. My home property in Concord abuts the project's right of way. If built, the new transmission lines will be right by my back yard.

The Northern Pass project will materially reduce my own enjoyment of my home due to the damage it will cause to the views from inside my home, as well as damage to the views from everywhere on my property.

The Northern Pass project will also substantially damage the financial value of my home investment. By decreasing the resale value of my home, the project will economically harm me and my family.

The Northern Pass project will bring me absolutely zero benefit, while causing my family substantial and irreparable harm.

Do not allow the Northern Pass project to proceed.
