October 15, 2017

Dear Pamela Monroe,

Thank you for this time to share my thoughts and opposition to this project, Northern Pass. As a resident in Grafton County, in the town of Bethlehem, our property will be directly impacted by this project which will scar 192 miles or more of this state. I oppose this project for many reasons, not the least of which is that it makes no common sense. It will ruin the natural beauty of our state and will threaten an already fragile economy. It will be detrimental to our properties, scarring the landscape for miles, disrupting seasonally sensitive tourism and jobs that are already scarce, and will not benefit the people of NH, but will most certainly harm our state for current and future generations. This is far from a trivial matter to us and we expect that these considerations weigh heavily and hope that the SEC denies this project. The facts are clear, the damage potential is profound.

Sincerely,
Julie Hohmeister
