In my view, opponents of NP are Ignorant Snowflake Obstructionists! They haven't a clue as to what their talking about! They have no concept of what REGIONAL Transmission Line System Reinforcement is all about. They have no concept of the advantages and yes - GIFT of the superior benefits of clean/reliable/efficient/cost-effective Hydro-power. They have no concept of the economic benefits in terms of employment and the attraction reasonably priced power has to start-up industry. They are a BIG-MOUTH Minority who garner Far More attention then they deserve! In my view, the industrial proponents of this project have been FAR TOO TOLERANT of these ignorant primitive obstructive primates. Start a push-back. Shut them up! It's way overdue
