I am a life long resident of New Hampshire, this project is going to destroy our beautiful state and affect our tourism industry, who wants to come to our state and look at high tension lines placed in some of our most popular viewing areas in our state, this is going to be an environmental nightmare not to mention the devaluation of New Hampshire Residents property.

I have visited remote Northern Canada and have seen first hand what this type of development has done to there country side, sad, so sad.

I say "No to Northern Pass" we are a small State and this development will devalue and destroy our State.
