Northern Pass is bad for New Hampshire, its residents and its visitors for many reasons. Not the least of which is how it will alter the wild and natural character of the north country. I visit the north country quite often, but two traditions are near and dear to my heart. First the Father's Day tradition I have of climbing a Mountain in the Whites with my daughter. I want the GMNF and the land we travel through to arrive at our trailhead every year to remain a special land of wildness. A second trip I take each year with a close friend takes us through Stewartstown and into Pittsburg to camp, fly fish, canoe and hike. The thought of these special lands and waters being spoiled by a power line breaks my heart. The Northern Pass proposal as it stands should be scrapped..
