CommenterWords

Please say no to Northern Pass, as we do not want it for many reasons!

1. It does nothing for our state that we need.
2. They are not honest and have a very weak plan (probably on purpose to get past some hurdles).
3. It will be detrimental to many NH residents.
4. It isn't really all that clean of energy.
5. They lied many times in their proposal, like telling you that we want it.
6. The alternative routes/plans make more sense.

Respectfully,
Mike & Lynda Vogel
