The Northern Pass is not good for our state, to destroy scenic areas and landmarks is just not right. Our beautiful White Mountains and scenic areas, old towns are New Hampshire and need to be left alone. So many people, come here to visit these beautiful areas to see the foliage, attractions, our forests, wildlife, and to enjoy the peacefulness of our White Mountains. The scenery is breathtaking, please do not allow this Northern Pass to come through our state, to allow unsightly towers to be put up along with digging up these historic areas. New Hampshire is my home, and the White Mountains and our north country can not be replaced. Please, no Northern Pass in NH.
