CommenterWords

As a NH lifelong resident and property tax payer I am asking you to work for NH, not against us. I realize Eversource has deep pockets, but you must see the greed. They want to destroy our BEST FEATURE. Our beautiful white mountains. The one feature that brings in the most tourist dollars because the beauty is known throughout the world. You have a bigger responsibility to the NH people than you do to a profit driven business who is anchored in Texas and has no concern whatsoever to the state and people of NH. So many local folks are asking you to SAY NO TO NORTHERN PASS. the loss of revenue, just in the view taxes the state collects would be detrimental. Please look st the long term effects of your decision. Sincerely, Mr and Mrs Craig and Deborah Rogers.
