I am an active duty Marine who maintains my NH residency because of what it stands for, "live free or die". I am fiercely proud of my state, and fully intend to retire to NH upon completion of my service as a U.S. Marine. To allow "imminent domain" to force law abiding citizens to give up land breaks with the freedom I so love about Nh. The wires would further destroy the image of pristine beauty that I hope to one day take as my place of rest. Thank you for your consideration.
