Re: putting Northern Pass in NH, the 3 registered voters in this house in NH do NOT want it. I do not want a PERMANENT SCAR across my beautiful state! Furthermore this power would not even go to NH citizens! The argument about jobs for locals is not sufficient as this is only short term and the destruction of our physical state is forever.

Also legislators conclude that there are now well-designed alternative transmission projects able to provide the Pass's claimed benefits.

You really have no right to destroy our beautiful state against the will of the citizens whose roots are in NH.

Sincerely,
Wendy Goddard
Derry, NH 03038
