Dear Pamela Monroe,

I have written to the SEC several times opposing NP. My biggest complaint is not about scenic beauty etc.. The project has no benefit to NH rate payers. I remember an Eversource proponent said NH rate payers would realize \$1.00+ over one year. Secondly why the hell do we NH residents want power sent from Quebec thru NH and on to MA to reduce their environmental footprint with CO2. They want denude our natural resources to benefit people south of NH and they want NH residents to pay for the project. Great idea for Wall Street not a good idea for NH.

Sincerely,
eric.cunningham
