November 5, 2017

Dear Pamela Monroe,

Northern Pass would be detrimental to New Hampshire because NH will not profit financially since the electricity would bypass NH and go to Massachusetts. The tourist benefit to NH would be destroyed by the decimation of our wilderness. Electrical towers that are taller than our beautiful gold dome on the State House would spoil our beautiful capitol city and every place they are erected. Only the people who own the land and would get rent from Northern Pass would be happy. Do not spoil the quiet towns and treasured farms and our wilderness.

Sincerely,
Karen Buchanan-Parker
