November 6, 2017

Dear Pamela Monroe,

I and my family are against the Northern Pass transmission line project. It is not a benefit to NH. It will cost us money we don't need to spend. It will be a blight on the NH landscape which we depend on as a state that gets a large amount of income from tourism. There are other ways to get power to southern states besides building these ugly enormous towers through our town and many others. It has been consistently opposed by a vast majority, 12 to 1, of citizens at many hearings yet the will of the electorate is being thwarted by these large power companies. It's our state, not Canada's, or Massachusetts's or the other southern New England states and power companies. Stop this unwanted project.

Sincerely,  
B. Konefal
