Dear Pamela Monroe,

As a seventy year old NH land owner and world traveler, never have I found a place more beautiful than home. It is beyond my understanding how any person, group, or business could conceive of negating the will of the land owners to permanently mar the exquisite land formations of New Hampshire. What New Hampshire offers in scenic splendor and environmental health is unique and irreplaceable.

You have heard the will of the people. Let go of your insistence to enrich a few at the expense of the lives, health and future of New Hampshire residents and visitors.

Sandra B. Mann

Sincerely,
Sandra Mann
