Subject: FW: Opposition MOA Plymouth Village Water and Sewer

Good morning, Pam. I'm requesting that my letter to the Plymouth Village Water and Sewer by posted as a public comment on the SEC site for Northern Pass. I am posting it in the mail today.
Thank you, Patricia Kellogg

November 7, 2017

Board of Commissioners,
Plymouth Village Water and Sewer
227 Old North Main Street
Plymouth, N.H. 03264

To the Board of Commissioners,

I write to you in opposition of the Memorandum of Agreement (MOA) that the board signed this past October, 2017 between your department and Northern Pass. The MOA is to bury a transmission line above the existing utilities on Main St., Plymouth.

If approved, this agreement will greatly affect the town and Plymouth State University, my alma mater. As a former student, I am well aware of how important the PSU students are to the economic success of businesses on Plymouth Main Street. PSU will be affected by the Northern Pass construction, which, if started, would overlap the beginning and end of the academic year.

Again, I urge the Commissioners to stop your negotiations with Northern Pass.

Thank you for your consideration.

Patricia Kellogg
