Dear Pamela Monroe,

Along with the vast majority of New Hampshire residents, I ask that you not allow the Northern Pass project to proceed. Not only does it negatively effect our tourism commerce, it will cost us money in taxes we will never see a return on. We should not be asked to pay for another states energy costs. This also opens the door for corporations to use the eminent domain laws for corporate profit which is definately not what they were created to do. Further, the rise in alternative energy sources is strong enough to totally eclipse the usefulness of this project before it is hardly completed. Please don't saddle us with outdated technology when the world so badly needs us to take bold steps forward in renewable energy. I thank you in advance for your time and consideration.

Sincerely,
Mary Hodgman
