DateReceived	11-09-2017

### CommenterWords

Northern Pass has continued to fight us (NH) with their endless millions so they and certain others can further increase their already enormous wallets. NH is gaining nothing by NPs intrusion to our State. It has been proven over and over by a number of various persons from residents to business owners to numerous concerned people from every part of the State. And, this includes people who just visit NH for its beauty.

Please settle this NP nonsense and send Northern Pass packing. New Hampshire doesn't need or want NP.
