### CommenterWords

Dear SEC:

I am a longtime resident of New Hampshire who cares about this state. New Hampshire is dependent on revenues from hikers, bikers, visitors, vacationers, leaf peepers, weekenders, skiers, kayakers, photographers, artists and all kinds of folks who come here for its Beauty. If the beauty of this state is marred by these huge towers, these people will stop coming and stop spending all the Money they do on Tourism.

Businesses and residents depend on Tourism to sustain their businesses and their livelihoods. Please also consider the Quality of Life that will be impacted for all of us if these towers are built. Please do not allow greedy speculators to use us and destroy our quality of life.

PLEASE SAY NO TO THE NORTHERN PASS PROJECT, or at the very least, require Eversource to bury all of it.  
Thank you.

Sincerely,

Diana Talbot
