No northern pass! Here is the list of negative impacts this will cause per the DOE's analysis!

1. Cause adverse impacts to tourism and recreation.
2. Negatively affect the historic context of architectural resources.
3. Cause impacts to vegetated habitats and land disturbance, impacting archeological resources and wildlife, including protected species.
4. Result in long-term wetlands impacts as compared to the other action alternatives.

The site evaluation committee hasn't even completed their review. STOP FAST TRACKING THINGS ON THIS ISSUE IN MY STATE!
