CommenterWords

It's shameful that the DOE has passed the Presidential Permit for Northern Pass, clearly IGNORING the serious environmental impacts and strong public opposition to Northern Pass in New Hampshire. The DOE has also disregarded the state of New Hampshire by rubber-stamping the project BEFORE the Site Evaluation Committee has completed their review.

Please listen to the residents of the State of New Hampshire. We are the ones who will suffer the consequences of Northern Pass as a disruption and eyesore in our state. And, in addition, there is no energy benefit to be had by the residents.

Please don't let this happen. Say NO to Northern Pass !

Sincerely,

Phyllis and Irwin Yaffie
