### CommenterWords

Dear Ms. Monroe,

I am very upset that the DOE approved the Northern Pass application.

I remain vehemently opposed to this project on the grounds that it will have negative impacts on our tourism and landscape of the Great North Woods area. I don't believe it will bring long-term jobs to New Hampshire or reduce my electric bill.

There are other alternatives to bring energy to Massachusetts without destroying habitat and tourism jobs in New Hampshire.

This project is based solely on greed and ego at this point. Eversource and it's partners don't want to lose face, but so much is at stake here.

I urge you to vote against the Northern Pass Project.

Respectfully,  
Ann M. Florio  
Lancaster, NH
