I live in New Hampton. My husband and I own 13 acres of land. We have lived here for over 30 years. Raised two children and have a grandson. I would hope to enjoy our land with our grandson and any other grandchildren. Our problem is that we have two of the largest towers in this whole project going on our property if this should pass. This is not how our land should be used nor any other land in NH. I feel that Eversource has just bought everyone out that stands in their way. Nobody is listening to the people of NH. Just the people who stand to make money. We would lose, We would walk away from our home and property. There is no way I will live here with these stupid towers. We are stuck, can't sell (don't want to) can't stay here. Not worth the assortment of health issues. Please listen to the majority of NH residents of NH. Don't allow this line. NH is not for sale. Eversource has already been fined for countless penalties. They have already lied about this project, they are already behind all the permits required. Who else are they buying out?
