The negative impact on my property will make it impossible to buy a house anywhere else equal to the quality I now have. I live a short walk from TurtleTown Pond. This conservation area will forever be a noisy ugly skyline if the pipeline is not buried. My taxes are already near \$7K a year, so I feel that I should have a say in this decision. There will be noise that is always there and will have an impact of the serenity this environment now offers.

BURY THE LINE THROUGH CONCORD

Sincerely, Susan Erickson, Concord
