The majority of citizens in the state of New Hampshire and many organizations DO NOT want the northern pass running through our state. Northern Pass can't seem to get anything right especially our concerns on effects both long and short term. Why don't you run it through Vermont or maine or even new York? New Hampshire is a beautiful state with many historical and natural qualities that must be protected! I am a life long tax paying citizen and do not appreciate being taken advantage of by some money hungry low life politicians who could care less about the state or it's people! You want a real fight? Well now you got one. If you think this is going to end up like the Bundy ranch , think again, gloves are off now!
