Dear Pamela Monroe,

Good morning Ms. Monroe,

I am emailing you to express my undesigning and deep-rooted concern over the Northern Pass project. It is a project
The people of New Hampshire have been intentionally misinformed and misled regarding the nature of the project, it's benefits and detractors.

I ask the SEC to investigate the nature of the studies and claims made to the people of New Hampshire on behalf of the Northern pass, As the project progresses, its excavation will irrevocably alter the landscape of the state. To this end, I request the pass project be halted until such an investigation is complete.

Thank you for your time and assistance,
Dennis Bretton
