November 22, 2017

Dear Pamela Monroe,

Dear Pamela Monroe,

My name is Ian Hancock, i am from Hopkinton New Hampshire, and i am writing to you in opposition to the proposed Northern Pass Transmission Project. I have lived in New Hampshire my entire life, and for the past five (5) years i have been working in the Outdoor Industry, primarily as a rock climbing instructor and mountain guide. My livelihood is based around tourism and with that the immense natural beauty of New Hampshire, so i am understandably upset about the proposal of the Northern Pass Transmission Project and its 100+ft transmission towers along with vast clear-cutting efforts needed for their installation. Living in northern New Hampshire i can say with certainty that tourism is the economic engine of the north county, and that the Northern Pass Transmission Project proposal will irreparably damage that engine. Please do the right thing and put forth efforts to oppose the Northern Pass Transmission Project.

Sincerely,
Ian Hancock
