We have a beautiful state full of scenic views that will be ruined by the Northern Pass. Whatever jobs it is supposed to provide are temporary and no guarantees that they would hire locals anyway. Tourism is a big money maker for many businesses in New Hampshire -tearing up our forests & mountains to put in the Northern Pass would be a tragedy for we Granite Staters. The natives of New Hampshire do not want the Northern Pass! Greedy businesses are pushing for this. It is not NEEDED and definitely NOT WANTED!
