Subject: Northern Pass Project

Dear Ms. Monroe,

I am writing you today with regard to the proposed Northern Pass project.

My wife and I reside in Benton, NH. We are transplants from out of state, my wife from south Jersey, and I from New York City and later Massachusetts. We landed here in rural New Hampshire because we fell in love with the natural beauty of the area. We both needed a break from the hustle of the city and wound up here. We found each other here and bought our first home here. This is our home.

I never would have dreamed that a state with the motto "live free or die" would sacrifice its natural beauty so that monstrous, greedy power companies could use us as a doormat to provide power to communities south of us.

I have seen the massive turbines in Quebec. I have seen the destruction created without regard to community.

Hydro Quebec is evil and callous, caring nothing for the environment or community. Eversource is no better.

This is about rich getting richer.

We cannot bear the idea of the towers, the construction or the destruction of natural habitat.

I don't believe the lies and rhetoric these companies feed us.

They would destroy our homes, ruin our property values and crush all that we have worked so hard for.

Please, I beg of you, help us fight this project.

If not, I will sell our home at a loss and leave this state forever. 25 years down the drain, sold out to the highest bidder. Our dream crushed by politicians and corporations out to make a buck.

I don't want to live in a state with no integrity.

Sincerely, Mark Lobkowicz
